DETAILED ACTION

Allowable Subject Matter

1. Claims 10-13, 15-20, and 24-29 are allowed.

The primary reason for allowance of claims 10-13, 15-20 is the inclusion of a bar and carriage being part of an ejection apparatus wherein movement of the bar along a first axis causes movement of a carriage along a second axis, which is found in all of claims 10-13, and 15-20, but not disclosed nor suggested by the prior art of record.

The primary reason for allowance of claims 24-28 is the inclusion of pushing a button disposed along a first side of an image forming device to move a bar along a first axis, and engaging the bar with a carriage to move the carriage outward from a second side of the image forming device, which is found in all of claims 24-28, but not disclosed nor suggested by the prior art of record.

The primary reason for allowance of claim 29 is the inclusion of moving a bar along a first axis by pushing a button, and then moving a carriage outward from a second side of an image forming device along a second axis by sliding a first angled edge of the bar along a second angled edge of the carriage, which is found in all of claim 29 but not disclosed nor suggested by the prior art of record.
